Airgas Means Business

Profit by joining the growing number of ReKlaim® Collection Centers.

Due to regulatory mandates and the HCFC production cut-backs, HVACR contractors and technicians need a convenient place to dispose of used and unwanted refrigerants in a safe and environmentally responsible manner.

In response, Airgas Refrigerants designed ReKlaim, a trademarked program that takes a simple, systematic approach to help expand your business. It's an easy way to increase revenue while providing your customers with a resource for returning their used refrigerant gases and managing cylinder assets.

The ReKlaim program is a comprehensive refrigerant reclamation service, backed by the expertise and infrastructure of Airgas Refrigerants, the leading distributor of refrigerant gas and services in the country.

Become a ReKlaim Collection Center and receive cash for all used and surplus refrigerants, free freight on all bulk returns, the use of certified DOT approved cylinders on an exchange basis, advertising support, and expert personalized service throughout the process.

And we pay quickly!

Simply call 1-800-406-2292 today to get started.
